You and **your** means the person or entity receiving or accessing the Service.

About this document

This document describes our compliance with the Inter-Registrar Transfer Policy and defines our involvement in the Registrar Transfer Dispute Resolution Policy.

Purpose

The purpose of this document is to provide a public statement by us regarding our intention to comply with the Inter-Registrar Transfer Policy and defines our involvement in the Registrar Transfer Dispute Resolution Policy.

What is the Inter-Registrar Transfer Policy?

The Inter-Registrar Transfer Policy aims to provide a straightforward procedure for the transfer of a domain name from one Registrar to another. The Inter-Registrar Transfer Policy also provides standardised requirements for Registrars receiving transfer requests.

Details about the Inter-Registrar Transfer Policy can be found on the ICANN website at the following link <http://www.icann.org/en/general/consensus-policies.htm>.

Our role in the Inter-Registrar Transfer Policy

Our role in the Inter-Registrar Transfer Policy is to:

- Provide the Service such that domain name transfers can occur as described in the Inter-Registrar Transfer Policy; and
- Reverse a transfer under the conditions described in the Inter-Registrar Transfer Policy.

Use of authInfo in domain name transfers

The following is provided for the purpose of clarity:

‘authInfo’ is a password that is generated by a Registrar for each domain name. An authInfo may be required for certain transactions that are made with a Registrar, including transferring a domain name.

The Service enforces complexity requirements on an authInfo, whereby it must:

- Contain at least 1 letter that is: a-z, A-Z;
- Contain at least 1 number that is: 0-9;
- Contain at least 1 punctuation or special character, for example: %, &, or @; and
- Be at least 8 characters in length, and no more than 32 characters in length.

A registrant may request their domain name’s authInfo from their Registrar, and a Registrar **MUST** not withhold the information.

What is the Registrar Transfer Dispute Resolution Policy?

The Registrar Transfer Dispute Resolution Policy is a policy adopted by ICANN. The purpose of the policy is to deal with dispute proceedings arising from a Registrar’s alleged failure to abide by the Inter-Registrar Transfer Policy.

ICANN requires that both we (in the management of the TLD) and Registrars, comply with the Registrar Transfer Dispute Resolution Policy.

A Registrar may choose to file a dispute with one of the dispute resolution providers at the following link <http://www.icann.org/en/help/dndr/tdrp/providers>.

Details about the Registrar Transfer Dispute Resolution Policy can be found on the ICANN website at the following link <http://www.icann.org/en/resources/registrars/transfers>.
